

Further Formulas

Format: Half Day
Max Capacity 6

Our “Further Formulas” module is designed for delegates who are very familiar with formulas and wish to take their knowledge to a higher level using the IF function, alongside nested functions and IF’s. This will allow for logical testing of large volumes of data.

Course Content

- Indirect
- Dependant Lists
- Data validation
- Formatting as a Table
- Renaming Table
- Using Table names/
column names in
formula
- Format as table with
named ranges
